NOTICE OF VIRTUAL HEARING

TO ALL INTERESTED PARTIES:

Notice is hereby given that on 24 October 2022, Mactan Electric Company, Inc. (MECO) filed an Application dated 19 July 2022, seeking the Commission's (1) confirmation of its true-up calculations of the Actual Weighted Average Tariff (AWAT) in relation to the approved average rate in the previous regulatory reset utilized and implemented during the lapsed regulatory period, and (2) approval of the recovery scheme for the lapsed regulatory years, with motion for provisional authority.

The pertinent allegations of the Application are hereunder quoted:

1. MECO is a private distribution utility with legislative franchise and certificate of public convenience<sup>2</sup> to construct, install, establish, operate and maintain a distribution system for the conveyance of electric power to the end users in the City of Lapu-Lapu and Municipality of Cordova. For this application, MECO is represented by its General Manager and Senior Vice President, Engr. Gilbert A. Pagobo as shown in the attached Secretary's Certificate.
2. Applicant may be served notices and other official documents at its principal office located at MECO Building, Sangi Road, Pajo, Lapu-Lapu and through its counsel, Rubio-Aguinaldo & Attorneys Law Firm, with office address at 802 Prime Land Tower, Market Street, Ayala Alabang, 1780 Muntinlupa City. Official documents may also be transmitted electronically at

## Digital economy to hit \$150B

BY IRMA ISIP

THE Philippines' digital economy is poised to achieve two years ahead of forecast \$20 billion in gross merchandise value this year but macroeconomic headwinds are to cut the potential GMV to \$35 billion by 2025, lower than the \$40 billion original projections.

The e-Economy SEA Report by Google, Temasek and Bain & Company showed the Philippines' digital economy will hit \$100 billion to \$150 billion by 2030.

This year's GMV is a 22-percent increase from a year ago.

Geia Lopez, industry analytical head of Google Southeast Asia, said growth towards \$100-\$150

billion by 2030 will be driven by electronic commerce fueled by large offline to online consumption shift and large domestic retail.

Lopez also cited the growing penetration of digital services across urban and rural regions as well as the growing local content consumption across homegrown social media platforms with rising number of content creators.

Lopez said the Philippines is also expected to remain a strong user of digital financial services, growing 63 percent year-on-year, the fastest in the region.

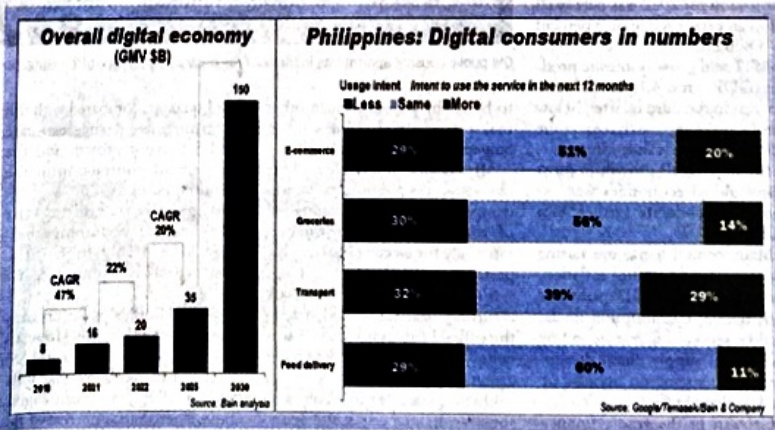

Next to Vietnam, the Philippines is also seen to attract more investors in digital between 2025 and 2030.

Growing at 17 percent from the previous year, e-commerce is expected to reach \$14 billion GMV by 2022 and \$22 billion GMV by 2025, the report said.

Despite the partial resumption of in-store shopping, e-commerce accounted for 70 percent of the overall Philippine digital economy. E-commerce, food delivery and video-on-demand are the top three digital activities of Filipinos showing an adoption rate of 88 percent, 69 percent, and 58 percent respectively among digital urban users.

Transport and food delivery are projected to reach \$1.9 billion GMV in 2022 and continue to grow at 29 percent compounded

# Sixers turn back Nets, spoil Simmons' return

JOBIAS Harris shook off a minor ankle scare early in the third quarter to score a season-high 24 points as the short-handed Sixers beat the visiting Brooklyn Nets 115-106 on Tuesday night (Wednesday in Manila) in Ben Simmons' return to Philadelphia.

Harris, who had missed the previous two games with a sore left hip, appeared to get injured again when he grabbed his right ankle in

pain in the opening minute of the third after colliding with Kevin Durant under the rim after missing a short jumper. After getting the ankle taped up, Harris scored 18 of his 24 points. He hit 10 of 21 shots as the Sixers shot 43.4 percent and survived allowing 55 percent.

Kyrie Irving led the Nets with 23 points, but Durant finished with 20 — held under 25 for the first time

this season. Nic Claxton added 12 while Simmons collected 11 points and 11 assists while hearing boos throughout the night.

Consecutive putbacks by Paul Reed and De'Anthony Melton opened a 96-87 lead with 8:10 remaining. Harris then made an open 3 for a 99-89 lead when Durant hesitated on a defensive switch a little over a minute later. Three straight hoops by Shake Milton

gave Philadelphia a 111-97 lead with 3:08 left, prompting the Nets to empty their bench.

In other games, it was the Kings 113, Grizzlies 109; Pistons 110, Nuggets 108; and Suns 115, Lakers 105.

## Kings 113, Grizzlies 109

De'Aaron Fox continued his hot shooting with a team-high 32 points, Harrison Barnes and Kevin

Huerter aided in a 3-point barrage with four apiece and Sacramento won its seventh straight game, beating host Memphis.

Ja Morant returned from an ankle injury to put up a game-high 34 points for the Grizzlies, who lost for the fourth time in five games. Sabonis led the Kings in rebounds (13) and assists (eight) while adding nine points. Barnes finished with 26 points, Huerter

18, Malik Monk 14 and Chimezie Metu 10.

Down three, Memphis had a chance to tie when Morant was fouled on a 3-point shot attempt with 1.7 seconds remaining. But he misfired on his first try, then intentionally missed his third attempt, after which Fox completed the scoring with two foul shots of his own. — *Field Level Media*

2020	680,532,301.19	571,297,788.50	22,330,807.78	11,165,403.89
2021	567,220,217.28	469,351,444.67	20,441,370.19	10,220,685.10
2022	538,512,581.19	457,553,054.79	3,294,203.65	1,645,101.83
2023	155,181,540.14	132,335,351.00	3,398,899.04	1,699,449.52
<b>TOTAL</b>	<b>5,210,102,678.91</b>	<b>4,574,141,581.54</b>	<b>136,137,387.34</b>	<b>68,068,693.67</b>

- To determine any resulting over or under recovery from the previous Regulatory Years or Lapsed Period, MECO's historical DSM revenue (a) was divided by its total historical kWh sales (b). The resulting actual average rate at PhP/kWh shows the Actual Weighted Average Tariff (AWAT) (c) for the Lapsed Period equivalent to PhP1.1390 per kWh. Formula: (a)/(b) = (c)
- Based on the calculation of the AWAT of PhP1.1390/kWh (c), as against the ERC-approved MAP of PhP1.1851/kWh (d), the result yielded a variance of PhPo.0461 per kWh (e) lower than the MAP, which is the approved price cap. Formula: (d)-(c) = (e)
- Since the AWAT is below the price cap, there is a resulting under recovery amounting to PhP210,867,926.91 (f). This amount was computed by multiplying the KWH sales (b) with the variance (e). Formula: (b)\*(e) = (f)
- Furthermore, MECO derived the rate on RBR from the 50% RBR requirement of the Revised RDWR vis-a-vis the average energy sales for 5 years thereby generating a PhP/kWh rate of PhPo.0181 per kWh which will be deducted from the tariff of each customer class.

Customer Class	DSM Rate	Recovery Rate	Final Rate
Schedule 4	1.4408	0.0503	1.4911
Schedule 3	1.1914	0.0375	1.2289
Schedule 2	0.9962	0.0307	1.0269
Schedule 1	0.8855	0.0204	0.9059

- GRANT MECO's MOTION AND ISSUE provisional authority to implement the recovery scheme pending final resolution of the instant application, and
- DECLARE all issues in connection with the lapsed period, resolved and terminated;
- GRANT MECO other equitable relief.

The Commission hereby sets the instant Application for determination of compliance with the jurisdictional requirements, expository presentation, Pre-trial Conference, and presentation of evidence on the following dates and online platforms for the conduct thereof, pursuant to Resolution No. 09, Series of 2020 and Resolution No. 01, Series of 2021 (ERC Revised Rules of Practice and Procedure):

Date	Platform	Activity
<b>16 December 2022 (Friday)</b> at nine o'clock in the morning (9:00 A.M.)	Microsoft Teams or Zoom Application	Determination of compliance with the jurisdictional requirements and expository presentation
<b>20 December 2022 (Tuesday)</b> at nine o'clock in the morning (9:00 A.M.)		Pre-trial Conference and presentation of evidence

## AMID RESILIENT ECONOMY

# BSP ready to adjust monetary policy settings

THE Philippines central bank has policy flexibility given a resilient economy and stands ready to adjust interest rates to bring inflation back to target, its governor said on Thursday.

"The Southeast Asian nation's sound economy provided the central bank flexibility "to manoeuvre as it acts to bring inflation back to the target," BangkoSentral ng Pilipinas (BSP) Governor Felipe Medalla said in a statement ahead of a Dec. 15 rate setting meeting.

Medalla told Reuters last month the BSP would have to raise rates in step with the US Federal Reserve, whose Chair Jerome Powell on Thursday said it could scale back the pace of its rate hikes "as soon as December".

"The BSP stands ready to adjust its monetary policy settings," Medalla said.

The Philippine economy grew by a stronger-than-expected 7.6 percent in the third quarter, backed by consumer spending.

The BSP, which has increased its benchmark interest rates by a cumulative 300 basis points since May to battle inflation, could hit pause on rate hikes by the first quarter next year barring "no major shocks", its governor said on Tuesday.

The interest rate on the BSP's overnight reverse repurchase facility now stands at 5.0 percent, a half-percentage point lower than the 5.5 percent on December, 2008, at the height of the financial

crisis that stemmed from global banks holding trillions of dollars of worthless investments in sub-prime mortgages.

The interest rates on the overnight deposit and lending facilities now stand at 4.5 percent and 5.5 percent, respectively.

Medalla said their latest baseline forecasts indicate a higher inflation path over the policy horizon, with average inflation breaching the upper end of the 2-4 percent target range in both 2022 and 2023 and

possibly hitting 5.8 percent and 4.3 percent, respectively. The forecast for 2024 has also risen slightly to 3.1 percent.

Inflation climbed 7.7 percent in October, the fastest rise since December 2008, due mainly to the faster price increases of food commodities.

"The Board will continue to take all necessary action to bring inflation back within the target band over the medium term, in keeping with its primary mandate to sus-

tain price and financial stability," Medalla said.

In deciding to raise the policy interest rate anew, Medalla said the Monetary Board noted that core inflation has risen sharply in October, "indicating stronger pass-through of elevated food and energy prices as well as demand-side impulses on inflation."

"At the same time, the risks to the inflation outlook lean strongly

See BSP &gt; Page A2

## Kadiwa centers to operate until prices are stable

## Manufacturing activity sustains growth in Nov

BY ANGELA LORRAINE CELIS

THE operating conditions of the Philippine manufacturing sector registered sustained growth in November, according to a report released yesterday.

The S&P Global Philippines Manufacturing Purchasing Man-

The report said growth stemmed from greater demand which resulted in quicker expansions in production levels and factory orders.

Buying activity also increased at a faster pace during November.

"The improvement across the sector primarily stemmed from

**HOTSHOTS**

"Pakita naming laban." With a 5-6 card that included a 16-97 triumph over Blackwater last Friday, the Painters will pin their hopes on reinforcement Ryan Pearson, Rey Nambatac, Anton Asistio, Leonard Santullan, Gian Mamuyac, Andrei Caracut, Gabe Norwood, and Beau Belga. The Beermen have notched three straight wins, including a 119-

99 ripping of TNT six days ago. SMB will be No. 5 in the quarterfinals by virtue of a 6-5 slate and, win or lose, next clashes with fourth-ranked Converge in a best-of-three battle. Import Devon Scott, June Mar Fajardo, CJ Perez, Vic Manuel, Marcio Lassiter, and Mo Tautua will carry the fight for SMB, which is also expected to have Terrence Romeo back after a long layoff due to a back injury.

**VILLAMOR**

Gen. Connor Anthony Canlas, the par-72 course and the entire VGC underwent a major facelift to the course and its infrastructure. "If ICTSI will include the Philippine Masters in its future calendar of events, VGC will be more than glad to support it," said Nolasco, hunting at the success of the recent ICTSI Villamor Match Play as prelude to the Masters re-

turn on the PGT schedule starting next year. Long regarded as one of local golf's versions of the four Majors, ICTSI and the PGT revived the PH Masters in 2017 after a 17-year wait, with Clyde Mondilla claiming top honors and Jerson Balasabas topping the 2018 edition via playoff over Dutch Guido Van der Valk. Touring pros hope to see it again on the calendar next year.

**ARIBADO**

president and national team manager Robert Bachmann. Although short on international exposure due to the COVID-19 pandemic, Bachmann was pleased that Kayod Pilipinas, the national team's moniker, has so far given the country one gold, one silver and one bronze, courtesy of men's singles semifinalist Reymark Begornia, in the country's campaign in the meet.

**TIGERS**

to 2-0 in the tourney presented by Dumper party-list, Winzer, and Converge and supported by Wcube Solutions Inc., MDC, Unisol, Don Benitos, and Finn Cotton, with PBA and Gilas Pilipinas great Marc Pingris serving as Commissioner. Veteran guard James Martinez dazzled with 31 points to steer Bicol to an 88-83 win over gritty Cagayan De Oro-PSP.

- To determine any resulting over or under recovery from the previous Regulatory Years or Lapsed Period, MECO's historical DSM revenue (a) was divided by its total historical kWh sales (b). The resulting actual average rate at PhP/kWh shows the Actual Weighted Average Tariff (AWAT) (c) for the Lapsed Period equivalent to PhP1.1390 per kWh. Formula: (a)/(b) = (c)
- Based on the calculation of the AWAT of PhP1.1390/kWh (c), as against the ERC-approved MAP of PhP1.1851/kWh (d), the result yielded a variance of PhPo.0461 per kWh (e) lower than the MAP, which is the approved price cap. Formula: (d)-(c) = (e)
- Since the AWAT is below the price cap, there is a resulting under recovery amounting to PhP210,867,926.91 (f). This amount was computed by multiplying the KWH sales (b) with the variance (e). Formula: (b)\*(e) = (f)
- Furthermore, MECO derived the rate on RBR from the 50% RBR requirement of the Revised RDWR vis-a-vis the average energy sales for 5 years thereby generating a PhP/kWh rate of PhPo.0181 per kWh which will be deducted from the tariff of each customer class.

- The approved DSM charges per customer class implemented by MECO pursuant to the Decision dated April 2, 2012 in ERC Case No. 2011-180 RC are as follows:

Customer Class	Description	Approved DSM Rate 2011-180 RC

Customer Class	DSM Rate	Recovery Rate	Final Rate
Schedule 4	1.4408	0.0503	1.4911
Schedule 3	1.1814	0.0373	1.2187
Schedule 2	0.9969	0.0307	1.0276
Schedule 1	0.8855	0.0804	0.9659

- GRANT MECO's MOTION AND ISSUE provisional authority to implement the recovery scheme pending final resolution of the instant application; and
- DECLARE all issues in connection with the lapsed period, resolved and terminated;
- GRANT MECO other equitable relief.

The Commission hereby sets the instant Application for determination of compliance with the jurisdictional requirements, expository presentation, Pre-trial Conference, and presentation of evidence on the following dates and online platforms for the conduct thereof, pursuant to Resolution No. 09, Series of 2020 and Resolution No. 01, Series of 2021 (ERC Revised Rules of Practice and Procedure):

Date	Platform	Activity
16 December 2022 (Friday) at nine o'clock in the morning (9:00 A.M.)	Microsoft Teams or Zoom Application	Determination of compliance with the jurisdictional requirements and expository presentation
20 December 2022 (Tuesday) at nine o'clock in the morning (9:00 A.M.)		Pre-trial Conference and presentation of evidence

MECO has been directed to host the virtual hearing at MECO's Principal Office located at MECO Building, Sangi Road, Pajo, Lapu-Lapu City, Cebu, as the designated venue for the conduct thereof, and ensure that the same is open to the public and the community quarantine guidelines are observed at all times. MECO shall also guarantee that, during the conduct of the expository presentation, the participation of the public shall not be impaired.

Any interested stakeholder may submit its comments and/or clarifications at least one (1) calendar day prior to the scheduled initial virtual hearing, via electronic mail (e-mail) at docket@erc.ph. copy furnish the Legal Service through legal@erc.ph. The Commission shall give priority to the stakeholders who have duly submitted their comments and/or clarifications to discuss the same and

ERC CASE NO. 2022-077 RC  
Promulgated:  
November 14, 2022

MACTAN ELECTRIC COMPANY, INC. (MECO),  
Applicant.  
x-----x

**NOTICE OF VIRTUAL HEARING**

TO ALL INTERESTED PARTIES:

Notice is hereby given that on 24 October 2022, Mactan Electric Company, Inc. (MECO) filed an Application dated 19 July 2022, seeking the Commission's (1) confirmation of its true-up calculations of the Actual Weighted Average Tariff (AWAT) in relation to the approved average rate in the previous regulatory reset utilized and implemented during the lapsed regulatory period, and (2) approval of the recovery scheme for the lapsed regulatory years, with motion for provisional authority.

The pertinent allegations of the Application are hereunder quoted:

- MECO is a private distribution utility with legislative franchise and certificate of public convenience to construct, install, establish, operate and maintain a distribution system for the conveyance of electric power to the end users in the City of Lapu-Lapu and Municipality of Cordova. For this application, MECO is represented by its General Manager and Senior Vice President, Engr. Gilbert A. Pagobo as shown in the attached Secretary's Certificate.
- Applicant may be served notices and other official documents at its principal office located at MECO Building, Sangi Road, Pajo, Lapu-Lapu and through its counsel, Rubio Aguinado & Attorneys Law Firm, with office address at 802 Prime Land Tower, Market Street, Ayala Alabang, 1780 Muntinlupa City. Official documents may also be transmitted electronically at applicant's registered e-mail addresses: [atty.mish@gmail.com](mailto:atty.mish@gmail.com), [jullo.gulliano@meocomactan.com](mailto:jullo.gulliano@meocomactan.com), [nloytolentino@meocomactan.com](mailto:nloytolentino@meocomactan.com)
- Under Resolution No. 24, Series of 2007, entitled, "Resolution Adopting a New Grouping for Privately Owned Distribution Utilities Entering Performance-Based Regulation (PBR)" dated October 24, 2007, MECO was grouped under the Second Entry Group (Group B). PBR is the rate-setting methodology adopted by the Commission to fix the distribution wheeling rates of privately-owned DUs.
- As part of Second Entry Group, MECO has already completed its Second Regulatory Reset Process for the Second Regulatory Period (2RP) which covers the period from April 1, 2009 to March 31, 2013.
- A regulatory reset process, under Annex A of Resolution No. 10, Series of 2021, entitled, "Resolution Modifying the Rules for Setting the Distribution Wheeling Rates (RDWR) for Privately-Owned Distribution Utilities Entering Performance-Based Regulation (PBR)" dated December 2, 2021 or the Revised RDWR, refers to the actions prior to the start of any Regulatory Period, through which the price control arrangements are established that will apply to a Regulated Entity with regard to the provision of Regulated Distribution Services for the next Regulatory Period. The Revised RDWR also provides for MECO's 3RP which covers the period April 1, 2013 to March 31, 2023, the lapsed period.
- As a price control principle, the Revised RDWR requires that the maximum distribution wheeling rates that a private DU may charge during each Regulatory Year for its distribution system will be set at a Maximum Annual Price cap. Therefore, the maximum average price during the regulatory year must not exceed the Maximum Annual Price cap.
- In ERC Case No. 2011-180 RC, the Commission approved a preliminary

15. Therefore, the proposed DSM charges per customer class are as follows

Customer Class	DSM Rate	Recovery Rate	Final Rate
Schedule 4	1.4408	0.0503	1.4911
Schedule 3	1.1914	0.0375	1.2289
Schedule 2	0.9962	0.0307	1.0269
Schedule 1	0.8855	0.0204	0.9059

**MOTION FOR PROVISIONAL AUTHORITY**

- Finally, a provisional authority to implement the proposed recovery scheme pending final approval of the Commission will give meaning to the purpose and objective of the true-up mechanism and allow full recovery of investment on regulated assets at an appropriate rate of return which is allowed by R.A. 9136 or the Electric Power Industry Reform Act of 2001 (EPIRA). The current economic crisis caused a tremendous shift in global prices - fluctuating fuel prices and surge in the cost of goods, commodities, and raw materials. The immediate recovery will augment MECO's financial constraints. Otherwise, the failure to recover the same at this point in time, or a much-prolonged recovery, may translate into losses that may in turn affect the operational efficiency of the DU.
- In support of this Application, MECO submits the electronic file of the following supporting documents.

Annex	Description
A	Breakdown of the Distribution, Supply and Metering Revenues and Actual Energy Sales (kWh) for the covered period (in excel format).
B	Detailed Computation of the Under Recoveries or the AWAT computation (in excel format).
C	Detailed Computation of the Proposed Refund Rate per Customer Class (in excel format).
D	Detailed Computation of the Proposed Refund Period (forecast energy sales) (in excel format).
E	Summary of the approved Average rate by Rate Schedule or Customer Class with Rate Impact Simulation (in excel format).
F	Document to Support Related Business Revenue
G	Judicial Affidavit of Engr. Juanito O. Tolentino, Jr., Head of MECO's Engineering Department (in docx, pdf, and paper copy) in support of the Motion for Provisional Authority

These documents may be accessed through this link: <https://drive.google.com/drive/folders/1113KPeo4LH9mGVlXKPAIBQhZG25atb67zusp-shading>

**RELIEF**

In view of the foregoing, applicant MACTAN ELECTRIC COMPANY INC (MECO) prays that the Honorable Commission:

- CONFIRM MECO's proposed mechanism for the 3<sup>rd</sup> Regulatory Period of the PBR or the lapsed period consistent with the Revised RDWR,
- CONFIRM MECO's computation of resulting under recovery of Two Hundred Ten Million Eight Hundred Sixty-Seven Thousand Nine Hundred Twenty-Six and 91/100 (PhP210,867,926.91),
- APPROVE MECO's proposed additional rate per customer class under a 5-year period recovery scheme, viz:

Customer Class	DSM Rate	Recovery Rate	Final Rate
Schedule 4	1.4408	0.0503	1.4911
Schedule 3	1.1914	0.0375	1.2289
Schedule 2	0.9962	0.0307	1.0269
Schedule 1	0.8855	0.0204	0.9059

- GRANT MECO's MOTION AND ISSUE provisional authority to implement the recovery scheme pending final resolution of the instant application; and
- DECLARE all issues in connection with the lapsed period, resolved and terminated;
- GRANT MECO other equitable relief.

The Commission hereby grants the instant Application for determination of the recovery scheme pending final resolution of the instant application, and

PROVINCE OF SAMAR  
Catbalogan City

**INVITATION TO BID FOR CONSTRUCTION OF FOUR (4) STOREY ACADEMIC BUILDING (15 CLASSROOM W/ AUDITORIUM) EVRSHS**  
Arteche Boulevard, Catbalogan City, Samar

- The PROVINCIAL GOVERNMENT OF SAMAR through the 20% DEVELOPMENT FUND 2022 intends to apply the sum of FIFTY MILLION PESOS ONLY (P50,000,000.00) being the Approved Budget for the Contract (ABC) to payments under the contract for CONSTRUCTION OF FOUR (4) STOREY ACADEMIC BUILDING (15 CLASSROOM W/ AUDITORIUM) EVRSHS (Arteche Boulevard, Catbalogan City, Samar) - ID No. Nov22-2022-068. Bids received in excess of the ABC shall be automatically rejected at bid opening.
- The Provincial Government of Samar now invites bids for the above Procurement Project. Completion of the Works is required Six Hundred (600) calendar days. Bidders should have completed a contract similar to the Project. The description of an eligible bidder is contained in the Bidding Documents, particularly, in Section II (Instructions to Bidders).
- Bidding will be conducted through open competitive bidding procedures using non-discretionary "pass/fail" criterion as specified in the 2016 revised Implementing Rules and Regulations (IRR) of Republic Act (RA) No. 9184.
- Interested bidders may obtain further information from Office of the BAC Secretariat, Provincial Capitol, Catbalogan City and inspect the Bidding Documents thereat during office hours.
- A complete set of Bidding Documents may be acquired by interested bidders on November 24, 2022 to December 19, 2022 from 8:00 AM to 5:00 PM at the given address and upon payment of the non-refundable fee for the Bidding Documents, pursuant to the latest Guidelines issued by the GPPB, in the amount of Twenty-Five Thousand Pesos only (P 25,000.00). The Procuring Entity shall allow the bidder to present its proof of payment for the fees personally or through its duly authorized representative.
- The Provincial Government of Samar will hold a Pre-Bid Conference on December 05, 2022 at 10:00 O'clock in the morning at BAC Office, Capitol Compound, Catbalogan City, which shall be open to prospective bidders.
- Bids must be duly received by the BAC Secretariat through manual (personal) submission at the BAC Office, Capitol Compound, Catbalogan City, on or before 10:00 o'clock in the morning, December 19, 2022. Late bids shall not be accepted.
- All bids must be accompanied by a bid security in any of the acceptable forms and in the amount stated in ITB Clause 16.
- Bid opening shall be on December 19, 2022 at 10:00 O'clock in the morning at the BAC Office, Capitol Compound, Catbalogan City. Bids will be opened in the presence of the bidders' representatives who choose to attend the activity.
- The Provincial Government of Samar reserves the right to reject any and all bids, declare a failure of bidding, or not award the contract at any time prior to contract award in accordance with Sections 35.6 and 41 of the 2016 Updated Implementing Rules and Regulations (IRR) of RA No. 9184, without thereby incurring any liability to the affected bidder or bidders.
- For further information, please refer to

Pasig City

IN THE MATTER OF THE APPLICATION FOR  
(1) CONFIRMATION OF TRUE-UP CALCULATION OF THE ACTUAL WEIGHTED AVERAGE TARIFF IN RELATION TO THE APPROVED AVERAGE RATE IN THE PREVIOUS REGULATORY RESET UTILIZED AND IMPLEMENTED DURING THE LAPSED REGULATORY PERIOD, AND  
(2) APPROVAL OF RECOVERY SCHEME FOR THE LAPSED REGULATORY YEARS, WITH MOTION FOR PROVISIONAL AUTHORITY

ERC CASE NO. 2022-077 RC

MACTAN ELECTRIC COMPANY, INC. (MECO)

Promulgated:  
November 15, 2022

Applicant

NOTICE OF VIRTUAL HEARING

TO ALL INTERESTED PARTIES

Notice is hereby given that on 24 October 2022, Mactan Electric Company, Inc. (MECO) filed an Application dated 19 July 2022, seeking the Commission a (1) confirmation of its true-up calculations of the Actual Weighted Average Tariff (AWAT) in relation to the approved average rate in the previous regulatory reset utilized and implemented during the lapsed regulatory period, and (2) approval of the recovery scheme for the lapsed regulatory years, with motion for provisional authority.

The pertinent allegations of the Application are hereunder quoted:

- MECO is a private distribution utility with legislative franchise and certificate of public convenience to construct, install, establish, operate and maintain a distribution system for the conveyance of electric power to the end users in the City of Lapu-Lapu and Municipality of Cordova. For this application, MECO is represented by its General Manager and Senior Vice President, Engr. Gilbert A. Pagobo as shown in the attached Secretary's Certificate.
- Applicant may be served notices and other official documents at its principal office located at MECO Building, Sangi Road, Pajo, Lapu-Lapu and through its counsel, Rubio Aguilando & Attorneys Law Firm, with office address at 802 Prime Land Tower, Manat Street, Ayala Alabang, 1780 Muntinlupa City. Official documents may also be transmitted electronically at applicant's registered e-mail addresses: [erl@meccor.com.ph](mailto:erl@meccor.com.ph), [erl@meccor.com.ph](mailto:erl@meccor.com.ph), [erl@meccor.com.ph](mailto:erl@meccor.com.ph).
- Under Resolution No. 24, Series of 2007, entitled, "Resolution Adopting a New Grouping for Privately Owned Distribution Utilities Entering Performance Based Regulation (PBR)" dated October 24, 2007, MECO was grouped under the Second Entry Group (Group B). PBR is the rate-setting methodology adopted by the Commission to fix the distribution wheeling rates of privately-owned DUs.
- As part of Second Entry Group, MECO has already completed its Second Regulatory Reset Process for the Second Regulatory Period (SRP) which covers the period from April 1, 2009 to March 31, 2013.
- A regulatory reset process, under Annex A of Resolution No. 10, Series of 2021, entitled, "Resolution Modifying the Rules for Setting the Distribution Wheeling Rates (RDWR) for Privately-Owned Distribution Utilities Entering Performance-Based Regulation (PBR)" dated December 2, 2021 or the Revised RDWR, refers to the actions prior to the start of any Regulatory Period, through which the price control arrangements are established that will apply to a Regulated Entity with regard to the provision of Regulated Distribution Services for the next Regulatory Period. The Revised RDWR also provides for MECO's SRP which covers the period April 1, 2013 to March 31, 2023, the lapsed period.
- As a price control principle, the Revised RDWR requires that the maximum distribution wheeling rates that a private DU may charge during each Regulatory Year for its distribution system will be set at a Maximum Annual

15. Therefore, the proposed DSM charges per customer class are as follows:

Customer Class	DSM Rate	Recovery Rate	Final Rate
Schedule 4	1.4408	0.0503	1.4911
Schedule 3	1.1914	0.0375	1.2289
Schedule 2	0.9962	0.0307	1.0269
Schedule 1	0.8855	0.0204	0.9059

MOTION FOR PROVISIONAL AUTHORITY

16. Finally a provisional authority to implement the proposed recovery scheme pending final approval of the Commission will give meaning to the purpose and objective of the true-up mechanism and allow full recovery of investment on regulated assets at an appropriate rate of return which is allowed by R.A. 9136 or the Electric Power Industry Reform Act of 2001 (EPIRA). The current economic crisis caused a tremendous shift in global prices - fluctuating fuel prices and surge in the cost of goods, commodities, and raw materials. The immediate recovery will augment MECO's financial constraints. Otherwise, the failure to recover the same at this point in time, or a much-prolonged recovery, may translate into losses that may in turn affect the operational efficiency of the DU.

17. In support of this Application, MECO submits the electronic file of the following supporting documents:

Annex	Description
A	Breakdown of the Distribution, Supply and Metering Revenues and Actual Energy Sales (kWh) for the covered period (in excel format).
B	Detailed Computation of the Under Recoveries or the AWAT computation (in excel format).
C	Detailed Computation of the Proposed Refund Rate per Customer Class (in excel format).
D	Detailed Computation of the Proposed Refund Period (forecast energy sales) (in excel format).
E	Summary of the approved Average rate by Rate Schedule or Customer Class with Rate Impact Simulation (in excel format).
F	Document to Support Related Business Revenue
G	Judicial Affidavit of Engr. Justito D. Tolentino, Jr., Head of MECO's Engineering Department (in docx, pdf, and paper copy) in support of the Motion for Provisional Authority

These documents may be accessed through this link: <https://drive.google.com/drive/folders/113KPa0LH8mGVOXKPA8QhZG25ahb67vaoe-shabng>

RELIEF

In view of the foregoing, applicant MACTAN ELECTRIC COMPANY, INC. (MECO) prays that the Honorable Commission:

- CONFIRM MECO's proposed mechanism for the 3<sup>rd</sup> Regulatory Period of the PBR or the lapsed period consistent with the Revised RDWR;
- CONFIRM MECO's computation of resulting under recovery of Two Hundred Ten Million Eight Hundred Sixty-Seven Thousand Nine Hundred Twenty-Six and 91/100 (PHP210,867,826.91);
- APPROVE MECO's proposed additional rate per customer class under a 5-year period recovery scheme, viz:

Customer Class	DSM Rate	Recovery Rate	Final Rate
Schedule 4	1.4408	0.0503	1.4911
Schedule 3	1.1914	0.0375	1.2289
Schedule 2	0.9962	0.0307	1.0269
Schedule 1	0.8855	0.0204	0.9059

- GRANT MECO's MOTION AND ISSUE provisional authority to implement the recovery scheme pending final resolution of the instant application, and
- DECLARE all issues in connection with the lapsed period, resolved and terminated.

# Marcos urged to resolve power rate hikes

BY EIREENE JAIRÉE GOMEZ

A CONSUMER group on Thursday urged President Ferdinand Marcos Jr. to exercise his powers to avoid electricity price increases completely after the Court of Appeals issued a temporary restraining order (TRO) suspending the Energy Regulatory Commission's (ERC) denial of its rate hike petition.

In a press conference, the Power for People Coalition (P4P) said the TRO issuance was an act of economic sabotage, saying it will only burden hard-pressed consumers amid the rising inflation.

In a letter submitted to the President, P4P convenor Gerry Arances said: "We write to you, Mr. President, to give you the opportunity to give us a merry, well-lit Christmas, because there is a way to avoid price increases completely. In fact, we can even roll back prices, and it is within your power to do so."

He further stated: "Much has been said about how the President shouldn't meddle in this issue when the more pressing question is why are we letting the judiciary disrupt the mechanisms put in place to protect consumers? The power supply agreements with straight pricing and the ERC decision shielded ordinary electric consumers from bearing the brunt of the energy crisis. The President himself said that this decision will have an 'extremely deleterious effect' on power prices. We say no thanks to this gift that San Miguel has bequeathed to ordinary Filipinos in the form of higher electricity bills."

and also suspends the power supply agreement (PSA) with Meralco powered by the Ilijan natural gas power plant in Batangas.

The ERC ruled that the fixed-price supply deal between the two firms provided no room for adjustments. San Miguel had requested the rate hike for electricity it sells to Meralco under their PSA due to higher fuel costs caused by the war in Ukraine and other factors that had not been anticipated when the PSA was originally approved by ERC and implemented.

Leody de Guzman, chairman of Bukluran ng Manggagawang Pilipino said: "Dapat ay aginaldang ang natatanggap natin kapag Pasko pero dahil sa ginagawa ng San Miguel ay perwisyo ang matatanggap natin sa loob ng sobrang bill ng ating kuryente (What we should be receiving are Christmas gifts but because of San Miguel, we're getting troubles in our electricity bills)."

"If there is anything that should be looked upon with great scrutiny by any court, it is the fact that San Miguel has 33 active PSAs which have been voided back in 2019 by the Supreme Court but were reactivated for some reason. FROM COME
